Dear Ms. Boornazian:

As discussed in our telephone conversation today, this is to advise you that the former Vitro Rare Metals Plant in Canonsburg, Pennsylvania, is included in the Uranium Mill Tailings Remedial Actions (UMTRA) Project. The UMTRA project was established by the Department of Energy to carry out DOE's responsibilities directed by Public Law 95-604, the "Uranium Mill Tailings Radiation Control Act of 1978." A copy of the Act is enclosed.

Associated with the Canonsburg site is the Landfill Site in Burrell Township, Pennsylvania. The Landfill Site is included in the UMTRA Project.

Enclosed for your information are copies of Environmental Analysis reports for the two sites and Fact Sheets for the Project and the Canonsburg site.

Sincerely,

Richard H. Campbell, Project Manager  
Uranium Mill Tailings Project Office

A letter was received from your office on July 28, 1981, regarding the proposed construction of a new power plant in the area of the existing plant. The letter requested that the Department of Energy conduct an environmental impact study of the proposed project. The Department of Energy is currently conducting a study of the proposed project and will submit a report to your office in the near future. The Department of Energy is also conducting a public hearing on the proposed project and will hold a public hearing in the near future. The Department of Energy is currently conducting a study of the proposed project and will submit a report to your office in the near future. The Department of Energy is also conducting a public hearing on the proposed project and will hold a public hearing in the near future.

*[Handwritten signature]*

Enclosed for your information are two copies of the Department of Energy's report on the proposed project. The report is dated August 10, 1981, and is titled "Environmental Impact Study of the Proposed Project".
